

AKASH NAIR

Software Developer

Ahmedabad | +91 9499592318 | nairakash128@gmail.com

CAREER SUMMARY:

Software Developer with 3 years of experience (internship + professional) in backend development using .NET Core, VB.NET, and MS SQL Server. Skilled in API development, database optimization, and large-scale application deployment. Experienced in Agile SDLC, version control (GitHub).

WORK EXPERIENCE:

National Informatics Center (Contractual)

Software Developer (VB.NET) | DECEMBER 2024 – Present

- Contributed to one of Gujarat's most critical legacy systems: **E-olakh** (CRS Portal) for Birth, Death & Still Birth registrations.
- Optimized complex SQL queries improving response time significantly.
- Coordinated with government officers and NIC senior developers to understand legacy system constraints and implement modern improvements.
- Worked on fixing production bugs, user-level issues, and documenting system behaviors.
- Developed new modules; optimized code and UI; complied with security audits.

Sapphire Software Solutions (Internship)

Software Developer (.NET Core) | AUGUST 2022 – SEPTEMBER 2024

- Contributed to **Vidyalya**, a large-scale CRM application for School and Colleges.
- Developed and optimized backend APIs and services using .NET Core.
- Built complex SQL queries, stored procedures, and optimized DB performance.
- Worked closely with QA and front-end teams to resolve bugs and deliver stable releases.
- Followed SDLC best practices, including requirements gathering, coding, testing, and deployment.

SKILLS:

- Programming & Frameworks:** C#, .NET Core, VB.NET, ADO.NET, JavaScript, HTML, CSS, Bootstrap
- Databases:** MS SQL Server.
- Tools & Platforms:** GitHub, Visual Studio, VS Code
- Core Competencies:** Backend Development, API Integration, SDLC, Code Optimization, Web Performance.
- Other:** Security Audit Fixes, Vulnerability Resolution, Data Migration, Legacy Code Refactoring
